SQUARE 32

STRETCH 37

THE EYE CATCHING product offers high flexibility and helps to minimize logistic costs.

The system consists of a high quality digital screen fixed with a bracket onto the back of the Focus freezer. All Focus freezers, Focus 73, Focus 106, Focus 131, Focus 151 and Focus 171 can work along with the digital screen. Just insert a USB with a film, and the screen will run automatically. A timer will make it possible to run the film whenever you want. Two different screens are available. The standard version is the 32" screen – shaped as a standard television screen. The deluxe version, is a 37" stretch screen, which is quite wide but Not very high.
